Longevity Records Of North American Birds. Version 2021.1

(Current Through December 2021)

About longevity records of North American birds ([longvrec.cfm](#))

***This page shows the succession of accepted longevity records for each species. If an encounter report is submitted for a bird whose age exceeds a previous record but not the current one, it will not be shown here. .**

How to use this page

This page lists all longevity records for each species by taxonomic order. You can narrow the list by selecting a species group, and then a species, or you can skip the species group selection and select a species.

A longevity record does not exist for every species, so it is possible that you will select a species and no record is available.

To see the entire list again, select "Show All".

To learn more about interpreting the age at banding and how the minimum age at encounter is calculated, [click here \(longvrec.cfm#agecal\)](#).

Questions about this page should be directed to Lauren Walker, Encounter Biologist at lewalker@usgs.gov (<mailto:lewalker@usgs.gov>).

Select Species Group:

Unknown

Select Species:

Yellow-billed Cuckoo

| Species Name | Minimum age at encounter | Banding date | Banding region | Age at banding | Sex | Encounter date | Encounter region | How bird and band were obtained | Condition of bird/band at encounter |
|--------------|--------------------------|--------------|----------------|----------------|-----|----------------|------------------|---------------------------------|-------------------------------------|
|--------------|--------------------------|--------------|----------------|----------------|-----|----------------|------------------|---------------------------------|-------------------------------------|

| Species Name | Minimum age at encounter | Banding date | Banding region | Age at banding | Sex | Encounter date | Encounter region | How bird and band were obtained | Condition of bird/band at encounter |
|----------------------|--------------------------|--------------|----------------|---------------------|---------|----------------|------------------|---|-------------------------------------|
| Yellow-billed Cuckoo | 5 years 00 months | 06/14/1960 | Florida | After Hatching Year | Unknown | 06/23/1964 | Tennessee | Caught due to striking or being struck by: motor vehicle. | Dead/Unknown |
